Subject: Lampros Draft Source Control Evaluation Report 9-8-2015

Hello Jim,

Attached to this email please find the draft version of the Source Control Evaluation for Lampros Properties (9040 Burgard Way, Portland, Oregon). Per your request, Eva DeMaria and Sean Sheldrake with the EPA have been included on this email. I have attached the full report including the laboratory analytical reports (Appendix D) because its size is less than your 8 MB email limit. The requested hard copies are coming to you via regular mail.

Thank you,

Scott

Subject: RE: Lampros Draft Source Control Evaluation Report

Scott, please review my request for distributions of documents to DEQ and EPA.

For DEQ submittals please submit one bound hard copy, one unbound hard copy, and a PDF of the complete report (Figures, Text, and Analytical). You do not have to follow the EPA format. My email limit is limited (less than 8 MB) so large documents should be sent on disk or using a FTP site, if you want DEQ to get the information more quickly.

All documents (letters, ect) should be sent as a hard copy, PDF copy on a disk.

Documents should indicate that EPA has been copied.

If analytical data as a hard copy combined with the report and figures requires a separate binding then submit all lab data on a disk without a hard copy of lab data.

Lab reports do not require chromatograms, just the standard lab report.

Documents that contain engineering or geology professional work shall be stamped by the person in responsible charge (Draft documents do not require a stamp).

Please forward all future submittals to DEQ to EPA in the format contained in the attachment (PDF Only to EPA).

EPA contacts are:

DeMaria.Eva@epa.gov (Eva DeMaria) and

sheldrake.sean@epa.gov (Sean Sheldrake)

Thank You

Jim Orr

Subject: Lampros Draft Source Control Evaluation Report

Hello Jim,

Attached to this email please find the draft version of the Source Control Evaluation for Lampros Properties (9040 Burgard Way, Portland, Oregon). The cover letter includes a cross reference table that lists the comments from your August 6, 2015 letter with the corresponding section in the report. The attached pdf version of this report does not include the laboratory analytical reports (Appendix D); they are too large to send via email. One hard copy of this report is being sent to you by regular mail. The hard copy will include Appendix D and a CD with the full electronic version of the report including Appendix D.

Please let me know if you need additional hard copies of this report or if you have any questions.

Thank you,

Scott

Subject: 2441 Lampros Steel Reporting, BMP Requests from DEQ, and EPA Draft PRGs

Marcus, attached is a request from DEQ with reporting clarifications for the source control report and best management practices for your site. A hard copy will also go out today.

Please let me know if you have questions.

Thank You
